Global Beverages

GLOBAL BEVERAGES

THE LARGEST KAZAKHSTAN HOLDING COMPANY PRODUCING ALCOHOLIC BEVERAGES, NATURAL MINERAL WATER, AND NON-ALCOHOLIC BEVERAGES.

OWN WHEAT FIELDS:

At Global Beverages, we are proud to have our own fields where high-quality wheat is grown. This unique advantage allows us to exercise full control over the production process from the very beginning, starting with the raw materials. This enables us to guarantee consistently high quality of our beverages at every stage of production, from field to bottle.

ABOUT DISTILLERY PLANTS:

The ALFA-ORGANIC distillery ensures uninterrupted production using high-quality raw materials — alcohols of the Alpha and Lux classes, obtained exclusively from durum wheat. They undergo thorough control and selection by specialists in the blending workshop. We sell alcoholic beverages and cooperate with companies that produce alcoholic beverages, including medical alcohol.

ABOUT FACTORIES:

GB Holding includes three beverage production plants equipped with modern automated equipment from leading European manufacturers such as Sidel, FBT, Kronen, KHS, and Frigasa. In addition, the plants are certified according to HACCP and ISO standards, which confirms our commitment to the highest quality and safety standards. The products undergo a thorough filtration process using natural materials such as birch charcoal, quartz sand, and precious metals. This process ensures not only the exceptional purity and freshness of our beverages but also preserves their natural taste.

PRODUCT DEVELOPMENT PROCESS:

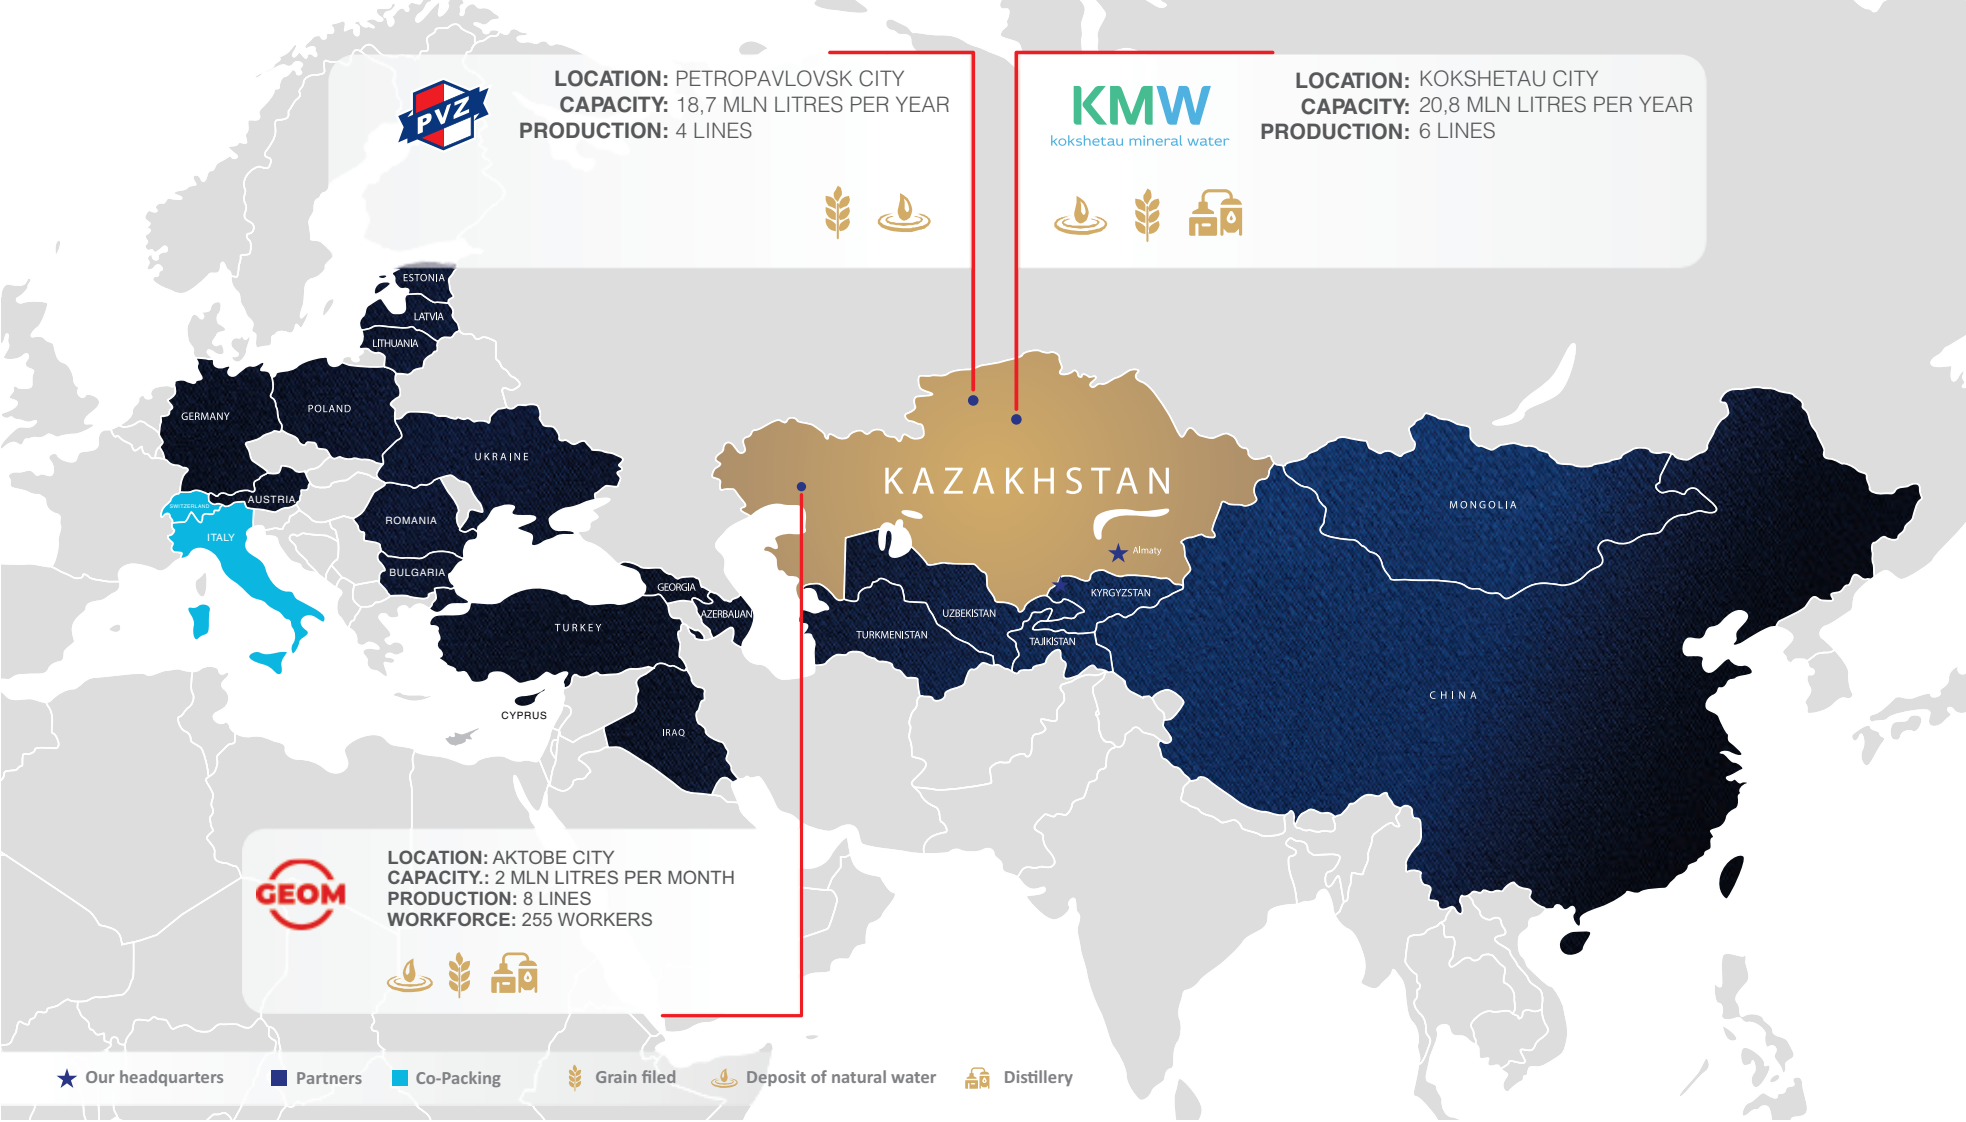

Our enterprises adhere to two important principles: we respect the legacy of our ancestors and, at the same time, create new brands: by developing exclusive designs and original recipes. We don't just produce beverages — we create brands from the very idea of turning them into world-renowned names. In addition to our brands, the company provides packaging services, meeting any customer's request. The high quality of our products is confirmed by international awards and medals.

LOGISTICS:

Our company is proud of the trust and popularity that our products enjoy in more than 30 countries around the world. We strive to be accessible to all our customers, so we can deliver our products to any location worldwide, using all types of transport and multimodal logistics.

🏭 Distillery

Perfection in every drop

Qstan is an ultra-premium vodka made from the highest-quality wheat harvested in the fields of Kazakhstan and the purest natural water from the Burabay region. It is produced taking into account the experience of master distillers and under strict control at all stages of production — from grain to bottle.

QSTAN Legend of Qazaqstan
A true legend of the steppes:
noble raisins and a duo of
aromatic herbs (sweet clover,
oregano, thyme).

QSTAN Nomad Select
The depth of the malt extract,
with the berry-like tartness of
juniper and the sweetness of
raisins.

XAOMA

ULTRA PREMIUM

XAOMA ULTRA PREMIUM VODKA
“A LEGEND EMBODIED IN GLASS.”

This is not just vodka — it's a journey through time. Inspired by the ancient secrets of the haoma-varg, we combined the purest malt, crystal-clear artesian water, and the spirit of steppe herbs to create a drink worthy of the great khans. Every drop of XAOMA is the power of nature, the wisdom of our ancestors, and an impeccable taste that captivates from the first sip. A revolution that has been awaited for 15 centuries.

XAOMA

VODKA

"A DRINK THAT INSPIRES AND GRANTS STRENGTH!"

In ancient times, the Haoma-Varg tribes roamed the vast expanses of modern-day Kazakhstan; they possessed the unique art of making the wonderful drink "haoma". It was believed that it bestowed heroic strength and health, glory and wisdom, protected from enemies, and even promised immortality. Over time, the recipe was lost, and for many centuries people searched for it in vain. Xaoma vodka is a harmony revived by masters— a harmony of pure alcohol, natural water, and aromatic infusions of steppe herbs, bringing the legend to life.

GREEN STEPPE

Kazakhstan is vast steppe expanses, the homeland of organic golden wheat, which is highly valued not only within the country but also abroad.

The vast Kazakh steppes inspired our craftsmen to create a product of the highest quality — the elite line of vodka Green Steppe Day & Night. The drink is based on soft artesian water, high-quality malt spirit of the Alpha class made from selected wheat varieties, and a lengthy filtration process that gives the drink impeccable purity and smoothness. Thus, our craftsmen managed to create a unique bouquet that will delight the most discerning connoisseurs of alcoholic beverages.

KYZYLZHAR

EST. 1996

Perfection in every drop

KYZYLZHAR vodka was created by our master distillers in honor of Kazakhstan's Independence, with the aim of imbuing its taste with purity and innate nobility. This vodka has taken first place in terms of recognition in the country; it adorns festive events and feasts. The legendary taste is achieved thanks to a unique recipe based on the purest artesian water and Alpha-class alcohol made from selected wheat varieties.

SAYAT

NOBLE NOMAD BITTER

Imagine nomadic tribes conquering new expanses: they cross scorching deserts and vast steppes, make their way through dense forests and mountain rivers, carefully selecting plants in search of unique strength and value. Their goal is to create a drink that will fill the soul and body with the invigorating energy of nature.

The bitter drink “Khan Sayat” transports us to the world of ancient nomadic traditions, combining a unique composition of 37 herbs and berries, hand-picked in the untouched region of Burabay. The complex composition gives the drink a multifaceted taste with bright, yet delicate notes of freshly picked herbs, accompanied by a long, warm aftertaste.

BURABAY

QULAGER

The deposit is protected by the state and included in the "List of water bodies of republican significance used for recreational purposes." The healing effect of the "Burabay-Kulager" water has been proven by a series of clinical studies conducted worldwide. The research results have confirmed the healing effect of the water on the main functional systems of the body: the cardiovascular, musculoskeletal, digestive, urinary, gynecological, skin, and endocrine systems. Burabay-Kulager moisturizes, refreshes, and improves metabolism.
